## Monthly Report

August 2022

Prepared by Mark Blair

The COVID Pandemic had less of an effect on citations in 2021 but the lingering effects still caused lower numbers for a while. We continued a downward trend until May 2021, when we were able to fill vacancies. After a steady climb since November 2021, numbers showed a decline from March through May, partially due to vacancies, but August really improved for an unknown reason.

2021 Arrests match 2021 Citations, showing a general slump until late summer, with Covid Variants having a spotty effect on numbers. After a short burst of activity in October 2021, November showed general slump along with the emergence of COVID Omicron but December and January rebounded. Interestingly, the arrest numbers have slowly decreased, with July being the second lowest number in 12 months. They improved slightly in August, however not nearly as much as citations, which seems to suggest officers are issuing tickets in lieu of jail.

Incident Reports taken are a reflection of reports actually written. A report is not written for every call. Reports taken seem to fluctuate around an average of about 200 per month, and July 2022 was not an outlier in this.

#### Arrestees and Victims

On average, between 60-65% of arrested persons come from outside the city limits, showing that we serve many more people than our in-town population.

August gave us 110 arrests, including 6 Juveniles.

#### Crime Types

Arrests consisted of the following: (Major categories, not inclusive of all arrests):
