RE: Operations & Maintenance of Hartsville City Cemeteries

Warren's Landscapes will perform the necessary services as outlined in the Cemeteries Contract for a yearly contract price of \$98,400 payable in monthly installments of \$8,200. Opening and closing of graves in Magnolia and Greenlawn Cemeteries and funeral supervision for 100 burials per year would be at a cost of \$250 per burial, billed monthly. After the 100 burials limit is reached, the charge would be one-half of the current City billing charges. This contract would be binding for five years.

The City may also wish to raise opening and closing costs and grave prices to help cover some of the expenses. These prices should be adjusted at least every three years.

This is to state that Warren's Landscapes and Contractors will carry necessary liability and workman's compensation if awarded this contract as evidenced in the past.

Though the hours of service may vary, we guarantee that all work will be completed in a workmanlike manner according to standard practices. All agreements are contingent upon strikes, accidents, or delays beyond our control.

Mary Ann Warren Johnson, Owner
