

Monthly Departmental Report: Navigator 2020

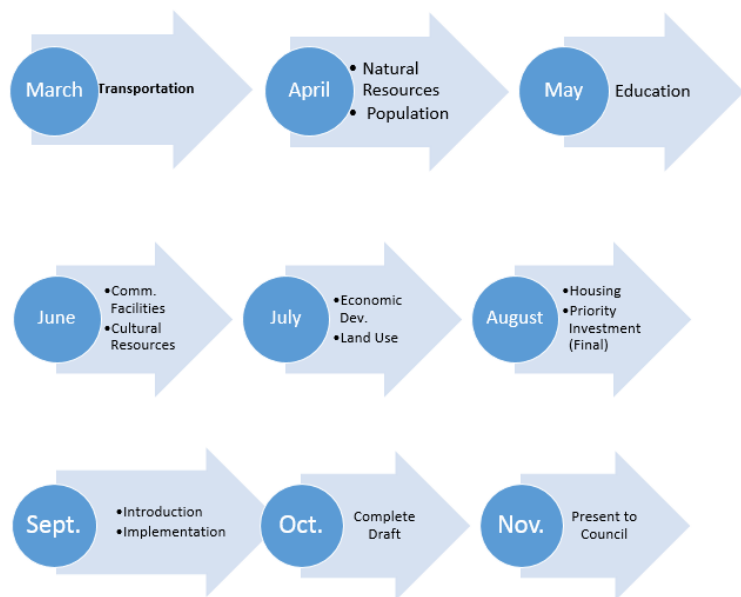

Comprehensive Plan

January 2020: Staff continues work on the Priority Investment element concerning capital improvements for the city and future projects. Statistical information is still being gathered and the Natural Resources & Transportation Elements are almost complete. Below are the elements slated for each month (estimated that Vision 2030 will be ready for city council Nov. 2020).

March 2020: Planning Commission met via teleconference and discussed the Transportation Element. PC asked that more information be provided within the Bicycle & Pedestrian Infrastructure section along with a GIS map illustrating where they are needed. Under the Truck Routes section include FedEx and UPS.

April 2020: Planning Commission did not meet but the Natural Resources & Population elements were emailed to the commission for review and input.

Ordinance Revision

January 2020: Planning Commission did not meet in January. The Planning Commission meet February 24th, no ordinances were revised. Tiny House presentation was made and discussion ensued.

Historic Butler District Neighborhood Revitalization Strategy

The City of Hartsville will be a partner in the Historic Butler EPA Brownfield grant utilized by Butler for asbestos removal/demo. The city will contribute and partner through technical assistance provided by staff for permitting and redevelopment activities. Per Mr. Heatley, Brownfield grant announcements should be made in April 2020.

Great American Cleanup

The Great American Cleanup will be postponed due to COVID-19.
